

Massive Earth Foundation

Building the ecosystem needed to solve Climate Change
and Pollution through Investments and Innovation

About Massive Earth Foundation

The Massive Earth Foundation (MEF) is a non-profit organization with the vision to effect actionable policy, research, and projects for the Pollution Reduction / Climate Change industry. MEF is also working to build a vibrant ecosystem to support innovation and scale through partnerships, investments, and ecosystem building in the areas of Clean Energy, Clean Mobility, Smart and Sustainable Agriculture, Water and Sanitation, and the Sustainable Built Environment.

The core strength of MEF lies in its ability to execute complex projects at scale, conduct path-breaking research, and bring various stakeholders to a single platform. It is backed by India's leading entrepreneurs, venture capitalists, and investors. MEF has also signed an MoU with the United Nations Environment Program.

Some of our active projects:

- **Asia Pacific Low Carbon Challenge:** MEF and UNEP host the Low Carbon Lifestyle Challenge Accelerator, a 12-week boot camp for startups with circular economy solutions. In its 4th year, it attracts 500+ startups annually from Asia.
- **Air Pollution in India:** MEF's report examines the causes of urban pollution in India, including crop burning, vehicular emissions, industrial activities, and fugitive dust.
- **Supporting EV Transition for Rickshaw Drivers:** MEF identifies 2- and 3-wheelers as major pollution sources and runs projects to transition them to electric vehicles, partnering with various stakeholders.

What We Do?

At **GoMassive**, we have been working since 2017 to build a **Climate Investing Ecosystem** through deep tech research, supporting startups with our incubator & accelerator programs as well as directly investing in them.

Investments

SEBI Category-1 Angel AIF
16 Investments Closed

Accelerators

Awarding pilots and grants for early-stage Climate Tech startups

CSR & Grant

On ground execution of complex projects in hard to abate sectors

Research

Comprehensive research in Electric Mobility, Circular Economy and Air Pollution

Events

Massive Earth Summit, Waste NXT, Mobility NXT and NXT by Climate Angels

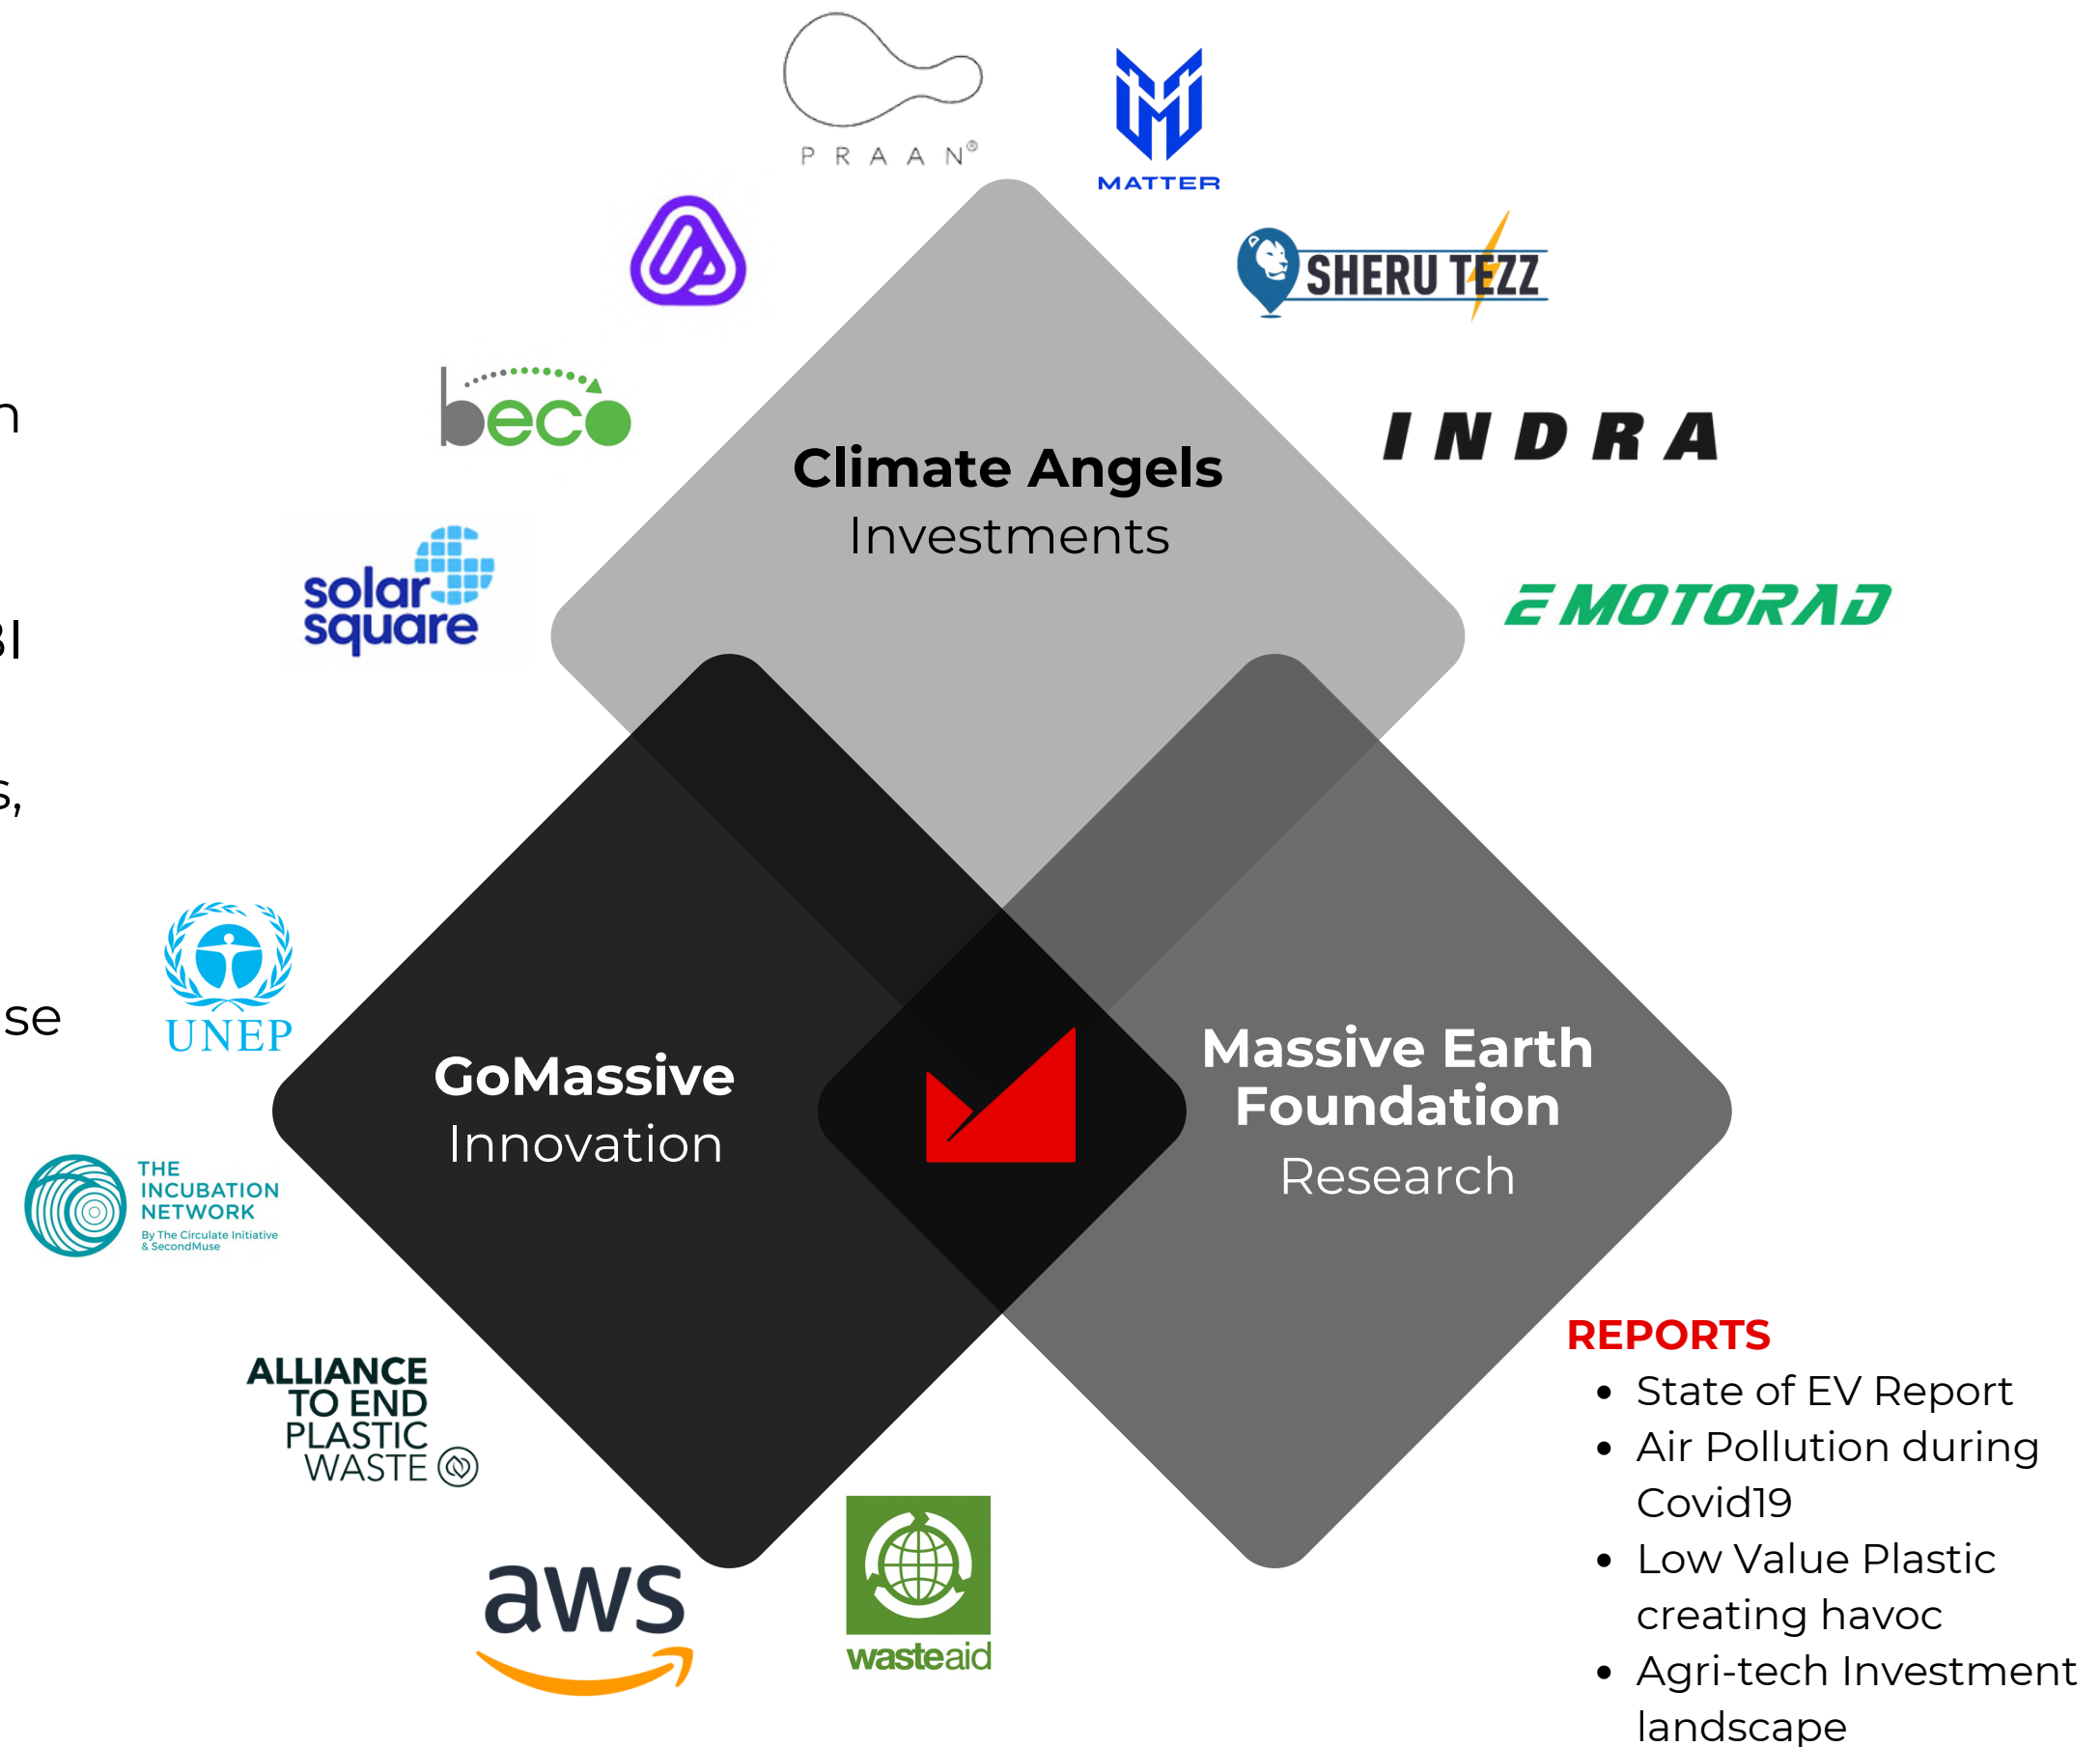

Massive Ecosystem

GoMassive is catalytic in early-stage investments in Pollution Reduction & Climate Tech, through:

- **Investments** at Climate Angels Fund, i.e. a SEBI Cat-1 Angel AIF, and
- **Innovation Programs** at GoMassive Incubators, and
- All investments and corporate innovation programs are backed by comprehensive inhouse **Research**.

We organize numerous Events through the year to facilitate conversations between leading investors, policy makers and academics.

Massive Events & Summits

Massive Earth Summit

Massive Earth Summit is India's first grand coalition where the private sector is joining hands with policymakers and innovators to find solutions for pollution and climate change.

Last hosted on June 06, 2019. Event saw 250+ delegates, 25+ institutional and corporate partners along with 3 partner countries.

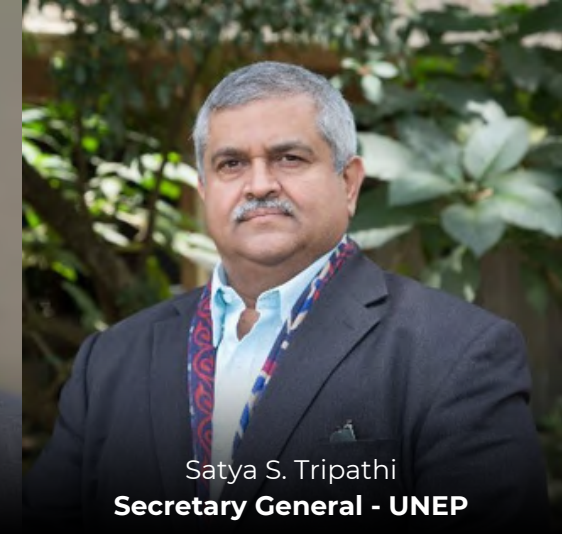

SPEAKERS MASSIVE EARTH SUMMIT 2018

Gajendra S. Shekhawat
Minister of Agriculture

Suresh Prabhu
Minister of Commerce

Satya S. Tripathi
Secretary General - UNEP

Dr. K Vijay Raghavan
Principal Advisor - Gol

Vijay Shekhar Sharma
Founder, Paytm

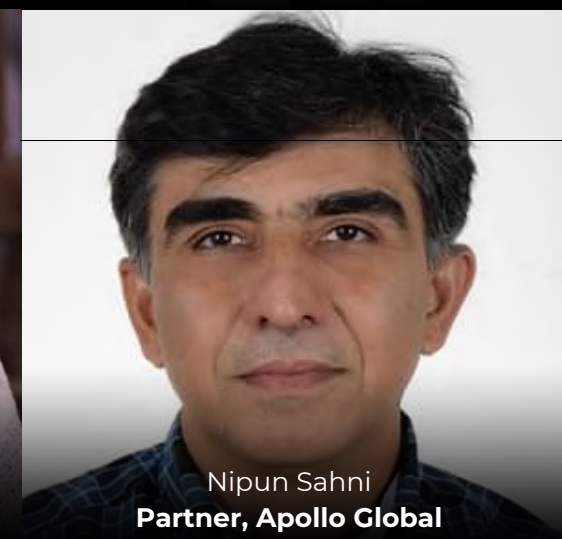

Sanjeev Bhikchandani
Founder, Infoedge

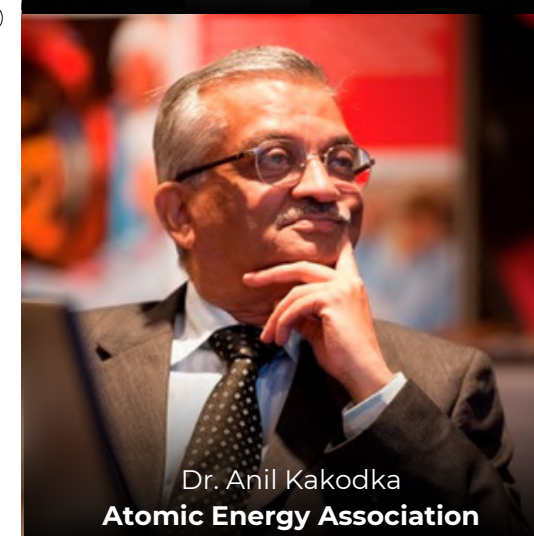

Nils Ragnar Kamsvåg
Norwegian Ambassador

Helena Molin Valdes
Climate Coalition UNEP

Nipun Sahni
Partner, Apollo Global

Dr. Anil Kakodkar
Atomic Energy Association

Lesley Onyon
Regional Head - WHO

ClimateNXT Series

NXT series brings together a handpicked audience of marquee investors, leading industrialists, key policymakers, venture capitalists/ angel investors, startup founders, senior government officials and industry senior professionals for a set of engaging panel discussions and audience interactions.

The goal of organising this event is to unite all relevant stakeholders to explore how, as a community, we can generate the most economic and societal value from the transformative climate technologies shaping our next decade.

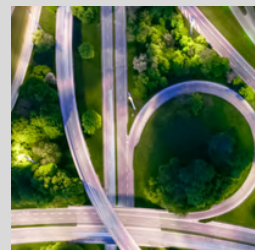

ClimateNXT Series

Past focus areas for ClimateNXT series:

WasteNXT

Tackle the challenge of waste generation and improper disposal.

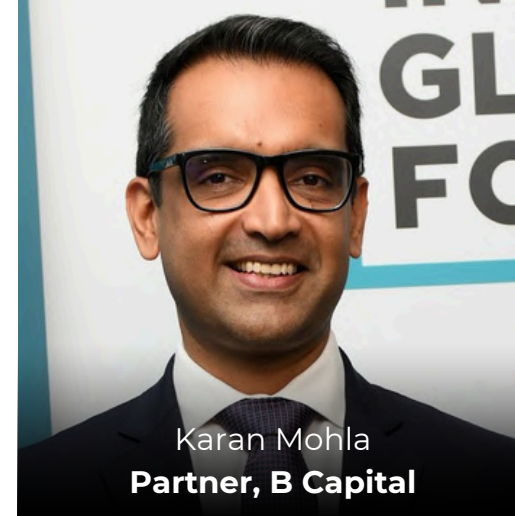

MobilityNXT

Engage and discuss opportunities in the e-mobility space.

VentureNXT

Discussion around investing in sustainable focused ventures.

Karan Mohla
Partner, B Capital

Akshay Singhal
Co-Founder, Log 9 Materials

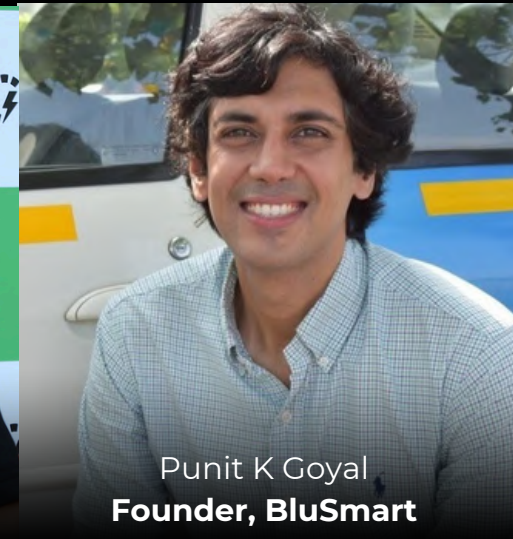

Pulkit Khurana
CEO, Battery Smart

Ashish Goel
UrbanLadder

Amitabh Saran
Founder, Altigreen Labs

Punit K Goyal
Founder, BluSmart

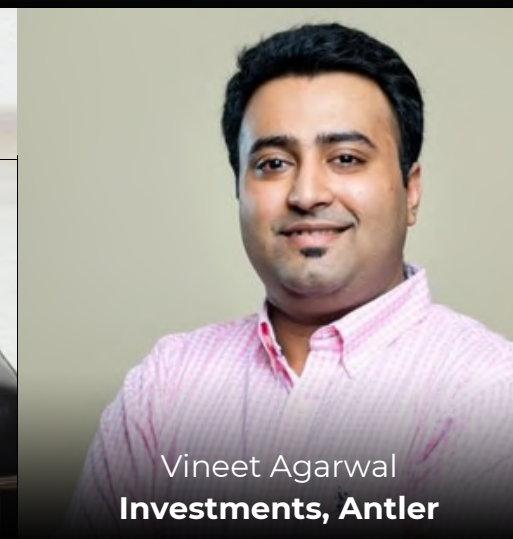

Amit Bhatt
Executive Director, WRI

Chaitanya Kanuri
Manager, Electric Mobility, WRI

Sandeep Chandna
CSO, Tech Mahindra

Vineet Agarwal
Investments, Antler

Vatsal Kanakiya
Principal & CTO, 100X.VC

Raja Gayam
Founder & CEO, Gayam Motor Works

Yogendra Kumar Saxena
Sustainability Advisor, TÜV Rheinland Group

Kartik Chandrashekhar
Partner, Sangam Ventures

Siddharth Mehta
Principal, Shell Ventures

Sumit Mittal
CFO, GreenCell Mobility

Past Challenges & Accelerators

LowCarbon.Earth '21

The Low Carbon Lifestyle Accelerator, supports revenue positive start-ups that make sustainable goods and services.

Agra Innovation Lab

Agra Innovation Lab was set up to ensure Prevention of Plastic Leakage into the Environment.

The Miles Challenge

The MILES Challenge aims to identify and provide a platform to start-ups with ready to deploy solutions in the Clean Energy ecosystem.

The ZeSUP Challenge

The ZeSUP Challenge aims to remove Single Use Plastics from the Food and Beverage industry in South East Asia.

Zero Waste Cities

The Zero Waste Cities challenge was designed to tackle the waste management crisis and empower startups across the globe.

Reports

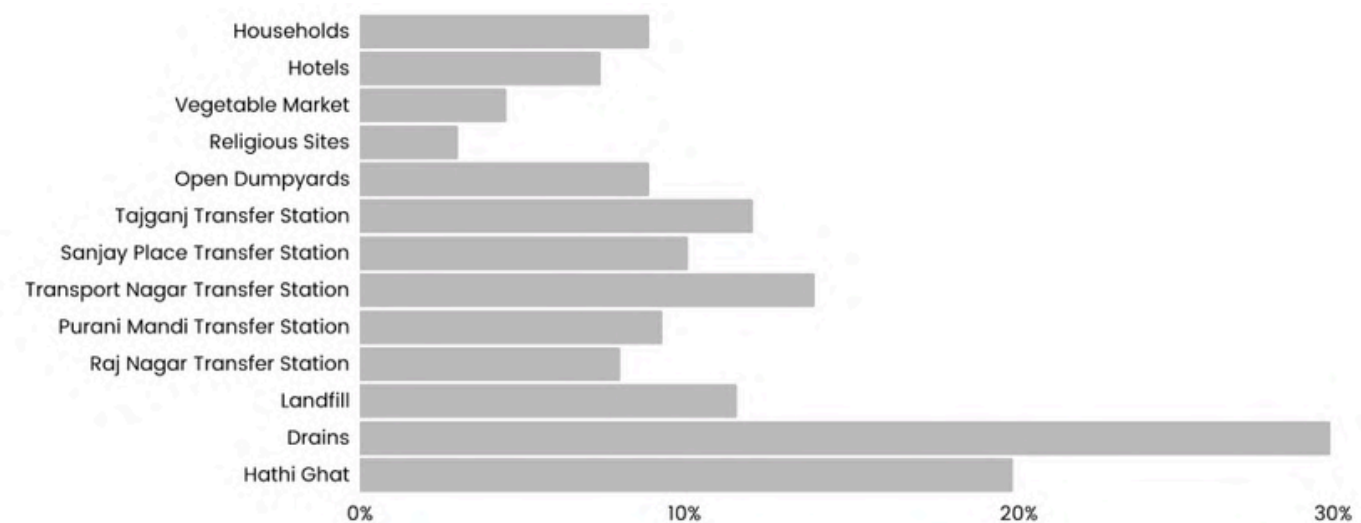

GoMassive has conducted comprehensive research in two sectors, namely Electric Mobility and Air Pollution in Northern India. This also dictates our investment mandate in the sectors.

What is choking Delhi's air?

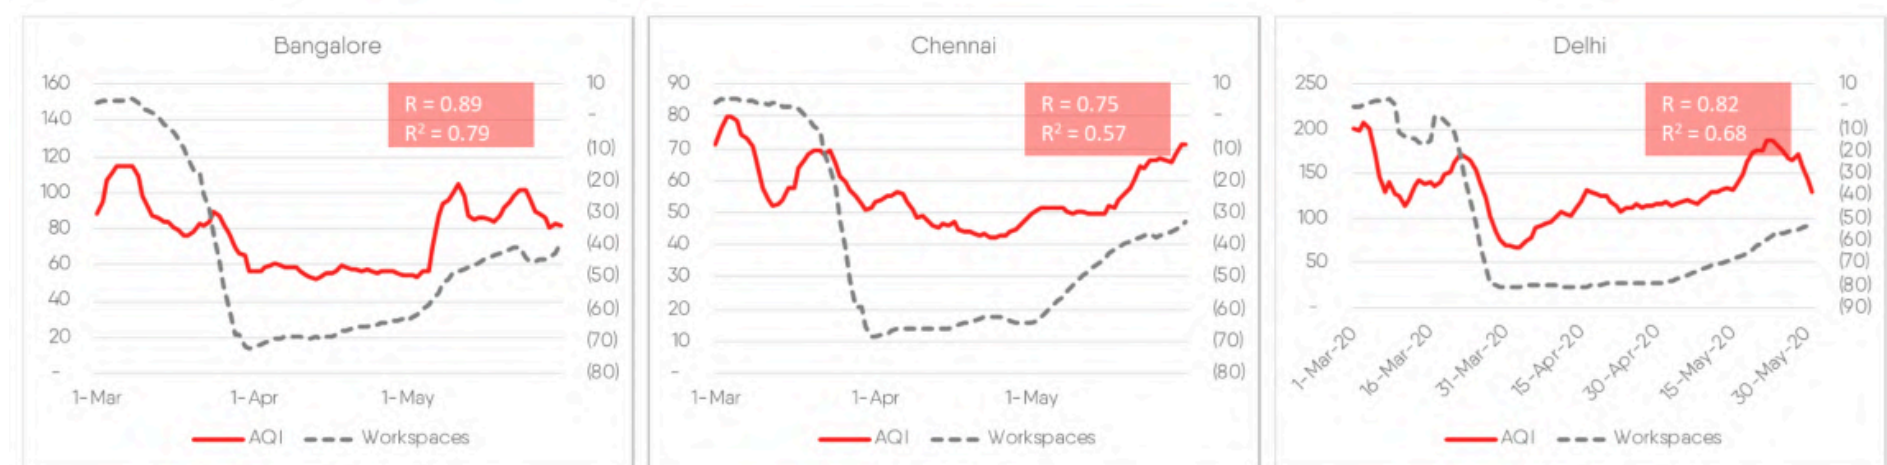

Key Topics of Discussion:

- The Prime suspect: Paddy Burning
- Vehicular Emissions
- The Schrodinger's Cat: Dust
- Where do we go next?
- How can anyone help?

Low Value Plastic causing Havoc

AQI correlation with transportation

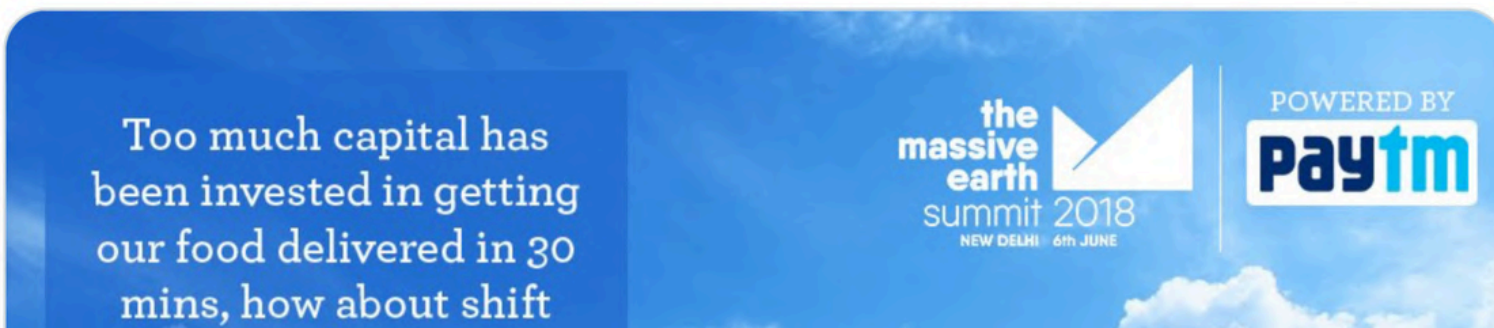

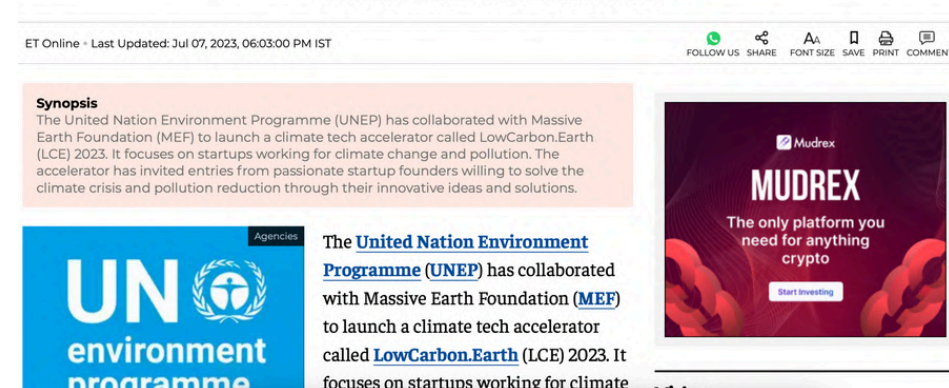

Media Visibility

Massive Earth Summit is a grand coalition where Investors, Startups, Policy Makers, Foreign Delegates and Innovators join forces to kick start the Pollution Reduction Industry, a \$15 Trillion opportunity. Its theme is Pollution-as-a-resource. [#IndiaMeansBusiness](#) [#NewIndia](#)
